National Urban Greening Fair in Kawasaki

Fujimi Park, Todoroki Ryokuchi Park, Ikuta Ryokuchi Park.

With the three parks as the core venues, we will combine the concepts of "Diversity", "Experience • Sensation", "History • Culture" with greenery, creating new values for greenery for each and every person, the Kawasaki way.

Founded 100 years ago in this land surrounded by lush greenery in the Tamagawa basin, Kawasaki has grown significantly as an industrial city at the heart of the Keihin Industrial Zone during the course towards modernization.

However, the city has faced air pollution and urban environmental problems, and housing development has led to a large loss of greenery.

Citizens, businesses and the government have overcome these challenges, protecting and nurturing the city's greenery, little by little.

Let's bring back this abundant greenery for the next 100 years.

The time is ripe, the National Urban Greening Fair in Kawasaki is blooming.

*Together,
let's have a good look at
the future of these streets.
Let's build it, a City of Green.*

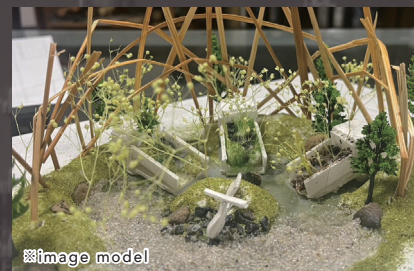

Ikuta Ryokuchi Park

Todoroki Ryokuchi Park

Fujimi Park

Fujimi Park

The main stage and icon of the National Urban Greening Fair in Kawasaki.
Utilizing the form of the newly opened revitalized park, it will host exhibits and expositions that will encourage the incorporation of flowers and greenery into everyday urban living.
